Resubmissions

In the case of a resubmission to Enterprise Ireland for EI ERC Proposal-Preparation-Support, the total grant is capped at 50%.

A reduced rate of 50% must be applied to staff costs and travel costs. Applicants should consider the strengths and weaknesses of their unsuccessful ERC application before resubmitting to EI, as well as where to concentrate their efforts this time. This should be reflected in the cost categories resubmitted to EI. Professional services costs can be applied for up to 100% for a resubmission.

The applicant must include details of the previously submitted ERC proposal (incl. name, acronym, ERC proposal number, Call ID, whether or not it received EI support funding for the first submission, and the score that was awarded to the ERC proposal in the previous evaluation) should be accompanied by a list of the major weaknesses identified in the evaluation (ideally attach the ESR) and a statement of how the Coordinator plans to overcome these weaknesses in the resubmission.

Where a reduced rate of 50% is not applied to staff costs and travel costs, Enterprise Ireland will automatically do this across both cost categories upon receipt of the application.
