Description and Objectives

Enterprise Ireland leads the national support network for Horizon 2020, working to increase participation by Irish companies and academic institutions in the EU's main instrument for funding research in Europe.

Aim

The aim of the EI H2020 Travel Support is to facilitate participation in Horizon 2020. EI H2020 Travel Support covers all fields eligible for funding in Horizon 2020¹.

Who Can Apply?

The EI H2020 Travel Support is open to researchers in higher education or publicly funded institutions (e.g. Universities, Institutes of Technology and Publicly Funded Research Institutions) only.

Eligibility

EI H2020 Travel Support covers visits abroad by Irish based researchers to meet potential partners and build Horizon 2020 consortiums. Travel Support also covers attendance at EU information days, workshops and brokerage events relating to Horizon 2020. One researcher per institution applying to EI H2020 Travel Support will be supported to attend a meeting.

The maximum support available for EI H2020 Travel Support is €3,000 per researcher for all trips/multiple applications. If a researcher exceeds €3,000 for all trips, they must provide EU reference numbers for Horizon 2020 proposals they have been included in, as well as detailed information about their personal involvement and input in the proposal preparation. They must also provide ESR, score, ranking and if failed, weaknesses of previous proposals.

EI H2020 Travel Support applications must be submitted at least one month in advance to allow best value in booking the trip.²

Eligible Costs

Eligible costs include least cost travel expenses and subsistence rates up to a maximum of €400 (covering out of pocket expenses including hotels, meals, taxis, local fares and incidentals) per day.

The applicant must provide as much information as possible about the reason for travel and how it will benefit proposal preparation.

Multiple trips are permitted under one application. Each trip must be itemised. Applications should include a short description of where, when and how (many days for each trip) they are traveling to. Visits will typically be up to three days duration. Applicants should identify project personnel (name and role) travelling.

Journeys must be carried out by the most direct and economic route, value for money must be demonstrated. If the flight or hotel cost is notably expensive, this must be explained in the application.
